## **Sustainability & Responsible Sourcing Data 2017**

CPI Mortars Ltd is the leading dry mortar supplier in the UK and is committed to sustainable and responsible sourcing. Our production facilities throughout the UK are certified to ISO9001, 14001 and BES6001

We actively promote responsible sourcing throughout our supply chain and have established measures within our company to ensure that we are continually improving our environmental performance. The following information has been independently verified.

### **CO<sub>2</sub> EMISSIONS**

In 2017, our emissions per tonne of product sold were 17.11Kg. Our emissions per million £ turnover were 205.73Tonnes.

We are on target for a 5% reduction in our emissions by 2020, compared to 2015.

### **WATER**

Our mains water usage during 2016 was 8.17 Litres per Tonne sold. The usage in 2017 decreased by 8.3% to 7.49 Litres per Tonne sold.

For 2018, we are targeting a reduction in our mains water usage of 5%, compared to 2017.

### **RESOURCE USE**

In 2017, we used less than 1% by-products/recycled materials such as cement replacements within our products.

For 2018, we are targeting to increase this to above 1% of the total tonnage sold.

The quantity of recollected mortar during 2017 remained below 1% of the total tonnage sold. This was achieved by a combination of improved communication with our customer base and a focus on improving factory production efficiencies.

For 2018, we are targeting to remain below 1% of the total tonnage sold.

### **RECYCLING**

During 2017, our general waste production was 0.06% of the total tonnage sold. 79% of our general waste was recycled.

For 2018, we are targeting to reduce our general waste production by 5% and increase our recycling of general waste by 5%, compared to 2017.

### **TRAINING**

On average we conducted over 9 hours of training per person during 2017.

For 2018, we are committed to delivering a further 5 hours training per person.
