

DRYMIX

PRODUCT DATASHEET

SEPTEMBER 2018 | EUROMIX DRY MORTAR SYSTEM | VERSION 1

1. Identification

1.1 Introduction

EuroMix Drymix is a factory produced drying agent consisting of dried sands, cement and other additives.

This product is primarily used to absorb water from clay and soil.

1.2 Authority

EuroMix Drymix is manufactured under a registered ISO 9001 Quality System.

Materials used comply with the following standards:

Sand	BS EN 13139
Cement	BS EN 197-1
Lime	BS EN 459-1
Admixtures	BS EN 934-3
Pigments	BS EN 12878

Admixtures do not contain calcium chlorides.

2. Description

2.1 Manufacture

All raw materials and end products are subject to regular quality control procedures and testing.

Dried sand and other materials are weighed and mixed under computer control with rigorous quality control procedures.

EuroMix Drymix is available in an extensive range of colours.

Copies of our Colour Shade Guide and samples are available on request.

3. Supply

Drymix may contain some iron oxide pigments

4. Prices and Conditions of Sale

Our local sales representative will be pleased to provide quotations for specific projects. All quotations are subject to our Conditions of Sale, a copy of which is available on request.

5. Health & Safety

For health and safety information – see Material Safety Datasheet.
