Sustainability & Responsible Sourcing Data 2018

CPI Mortars Ltd is the leading dry mortar supplier in the UK and is committed to sustainable and responsible sourcing. Our production facilities throughout the UK are certified to ISO9001, 14001 and BES6001

We actively promote responsible sourcing throughout our supply chain and have established measures within our company to ensure that we are continually improving our environmental performance. The following information has been independently verified.

CO₂ EMISSIONS

In 2018, our emissions per tonne of product sold were 17.97Kg. Our emissions per million £ turnover were 211.14Tonnes.

We are on target for a 5% reduction in our emissions by 2020, compared to 2015.

WATER

Our mains water usage during 2017 was 7.49 Litres per Tonne sold. The usage in 2018 decreased by 13% to 6.50 Litres per Tonne sold.

For 2019, we are targeting a reduction in our mains water usage of 5%, compared to 2018.

RESOURCE USE

In 2018, we used less than 1% by-products/recycled materials such as cement replacements within our products.

For 2019, we are targeting to increase this to above 1% of the total tonnage sold.

The quantity of recollected mortar during 2018 remained below 1% of the total tonnage sold. This was achieved by a combination of improved communication with our customer base and a focus on improving factory production efficiencies.

For 2019, we are targeting to remain below 1% of the total tonnage sold.

RECYCLING

During 2018, our general waste production was 0.07% of the total tonnage sold. 83% of our general waste was recycled.

For 2019, we are targeting to reduce our general waste production by 5% and increase our recycling of general waste by 5%, compared to 2018.

TRAINING

On average we conducted over 15 hours of training per person during 2018.

For 2019, we are committed to delivering a further 5 hours training per person.
