## **Sustainability & Responsible Sourcing Data 2019**

CPI Mortars Ltd is the leading dry mortar supplier in the UK and is committed to sustainable and responsible sourcing. Our production facilities throughout the UK are certified to ISO9001, 14001 and BES6001

We actively promote responsible sourcing throughout our supply chain and have established measures within our company to ensure that we are continually improving our environmental performance. The following information has been independently verified.

### **CO<sub>2</sub> EMISSIONS**

In 2019, our emissions per tonne of product sold were 17.77Kg. Our emissions per million £ turnover were 202.02Tonnes.

We achieved our 5-year target with 46% reduction in our emissions. Our 2025 target is to reduce our emissions by a further 20%.

### **WATER**

Our mains water usage during 2018 was 6.50 Litres per Tonne sold. The usage in 2019 decreased by 7% to 6.05 Litres per Tonne sold.

For 2020, we are targeting a reduction in our mains water usage of 5%, compared to 2019.

### **RESOURCE USE**

In 2019, we used less than 1% by-products/recycled materials such as cement replacements within our products.

For 2020, we are targeting to increase this to above 1% of the total tonnage sold.

The quantity of recollected mortar during 2019 remained below 1% of the total tonnage sold. This was achieved by a combination of improved communication with our customer base and a focus on improving factory production efficiencies.

For 2020, we are targeting to remain below 1% of the total tonnage sold.

### **RECYCLING**

During 2019, our general waste production was 0.08% of the total tonnage sold. 89% of our general waste was recycled.

For 2020, we are targeting to reduce our general waste production by 5% and increase our recycling of general waste by 5%, compared to 2019.

### **TRAINING**

On average we conducted 30 hours of training per person during 2019.

For 2020, we are committed to delivering a further 5 hours training per person.
