## **Sustainability & Responsible Sourcing Data 2021**

CPI Mortars Ltd is the leading dry mortar supplier in the UK and is committed to sustainable and responsible sourcing. Our production facilities throughout the UK are certified to ISO9001, 14001 and BES6001

We actively promote responsible sourcing throughout our supply chain and have established measures within our company to ensure that we are continually improving our environmental performance. The following information has been independently verified.

### **CO<sub>2</sub> EMISSIONS**

In 2021, our emissions per tonne of product sold were 20.45Kg. Our emissions per million £ turnover were 226Tonnes.

Our 2025 target is to reduce our emissions by a further 20%.

### **WATER**

Our mains water usage during 2020 was 5.42 Litres per Tonne sold. The usage in 2021 decreased by 10% to 4.84 Litres per Tonne sold.

For 2022, we are targeting a reduction in our mains water usage of 5%, compared to 2021.

### **RESOURCE USE**

In 2021, we used less than 1% by-products/recycled materials such as cement replacements within our products.

For 2022, we are targeting to increase this to above 1% of the total tonnage sold.

The quantity of recollected mortar during 2021 remained below 1% of the total tonnage sold. This was achieved by a combination of improved communication with our customer base and a focus on improving factory production efficiencies.

For 2022, we are targeting to remain below 1% of the total tonnage sold.

### **RECYCLING**

During 2021, our general waste production was 0.11% of the total tonnage sold. 96.6% of our general waste was recycled.

For 2022, we are targeting to reduce our general waste production by 5% and increase our recycling of general waste by 2%, compared to 2021.

### **TRAINING**

On average we conducted 45 credits of training per person during 2021.

For 2022, we are committed to delivering a further 10 credits of training per person.
